Please explain: **because with that we can solve the problem with alcohol! It is a very smart project! Many teachers were talking about it! It is positive because it improves the relationship with other countries! We learnt that education can be so much fun! Getting to**

The impact of personal food, drink and lifestyle choices on personal health, social issues and cultural identity, the environment, global economy and the distribution of wealth
 know other countries! Some people just don't want to change their attitude even though it is helpful! Maybe some of us! In the project there are not so many people to change some habits! It has made more people want to experience other cultures! Yes, we learnt lots and will take new information back to England! It's good to meet people of all nationalities! International friends! We represented the school well! Good to come into contact with other cultures! **The social/personal experience was more important than the academic output. It's a good chance! Don't know! I think that parties without alcohol isn't that unpopular anymore! We socialized! The class was so much more together, and I've learned so many new things about my school! It was just very fun and exciting! We don't get influenced easily! It has been a very good experience but many Danes stick with their Danish groups! Great experience! I don't know why it just was! Shows that the school is active and that it is international! The other students from Dronninglund gymnasium talked with our guests as well! It was so funny!**

2. Has participating in this project enriched/improved your life as a student? Yes: **37** / No: **8**
No answer: 8

Please explain: I've learn't a lot of things about other countries and my English is better now! It improved my English! Just right now I'm planning so much as a student for school and I wanna use my Danish experience as much as I can! I met a lot of new people and improved relationships with friends from the group! Yes, I met a lot of new people from Spain, England and Denmark and I practice English. And I got to know about culture in Denmark! I have improved my English and I met new people, really nice experience! I am interested in these issues and healthy lifestyle! I saw that school don't have to be boring. I really like the Danish school and their approach to learning and studying! It was a very good experience for me. I suppose it opened opportunities to improve my language skills and find new cultures. Because now I can speak English better and before I had problems to explain me in English and now I can explain better! Simply, it's was great!! It has helped me learn to talk to lots of different types of people regardless of language limitation! I'm more confident and feel more able to speak in public! Insight into life in different countries, a very good experience! It has given me a better knowledge of school life in Denmark and the differences and similarities we share! Experienced new culture! I have made a lot of new friends and had increased my confidence! It was a really good experience meeting students from other countries! I understand more about other cultures! Yes, meeting the other students has been very interesting and useful. I feel more confident in English! More socialized for a while! No, but it was fun! A bit more social! Yes, because it has been fun! No! Yes, I have got a lot of new contacts and met people that I just wouldn't see otherwise! A little! I'm much better at English and I found new phrases in both English and Spanish. Also I've learned to appreciate my school system and learned about other ways of school life! I loved meeting new people! Improved my English! Too short time! Yes, it makes me want to learn English and Spanish faster, so that I easier can talk to my new sweet friends! It has been a great experience to host and speak English! I don't know! No, but it was a good experience! No I didn't get any new information that I couldn't find myself!

3. Suggest ways to IMPROVE THE STUDENTS' CONTRIBUTION to the next conference:
 Everything was quite good! I think it would be better if some of the presentations were funny and creative! Students might have to e.g. bring own good and healthy food for the gathering with others and maybe a bigger discussion after each countries presentation! Be confident with speaking in front of other people. Bigger amount of cultural information from those participating countries! Offer us more options to do something in the evenings together! Not too many sentences on the slides (power point)! Party and see more monuments! To the Danish students, to make the presentations funnier! Spend longer preparing! Not any really! More small group activities! More interesting and fun activities on Saturday! More visual information to stop problems with communication during presentations! More time to prepare! Get a lot of sleep before exchange! There isn't time for a long nights sleep! Having a day more! More socializing! More teachers involved! More time and information! More communication! More discussion!
